TROUBLE SPEAKING

CONFUSION

WEAKNESS ON ONE SIDE

TROUBLE SEEING

TROUBLE WALKING

SEVERE HEADACHE

# Know the signs of stroke.

KNOW WHAT? East Texans are more likely to die from stroke than our neighbors in other parts of the state.\*  
That's why ETMC wants you to know the signs of stroke and what to do for someone who may be having a stroke.

**KNOW THE SIGNS.**

If someone is having one or more of these symptoms, call 911:

- Sudden trouble seeing in one or both eyes
- Sudden numbness or weakness of face, arm or leg — especially on one side of the body
- Sudden confusion
- Sudden trouble speaking or understanding speech
- Sudden trouble walking, dizziness, or loss of balance or coordination
- Sudden severe headache with no known cause

**KNOW WHAT TO DO.**

**Call 911 immediately!** A stroke means there is a blood clot or bleeding in the brain. The sooner a person receives medical attention, the less brain damage will occur and the better the chance for recovery.

**KNOW WHERE TO GO.**

ETMC has met rigorous standards to become the region's first certified stroke center. ETMC professionals have extra training in all aspects of stroke care and treatment to ensure the best possible outcomes for people who suffer strokes.

**To receive a free KNOW STROKE magnet, call 1-800-728-2702.**
