statement. "So, in addition to assessing the situation of our artists and helping them, Dr. Sorrells will advocate for the disabled."

According to Bristow, the Global Art Initiative's mission is to break the poverty cycle for disabled artists in third-world countries. The non-profit organization focuses on education and the sale of original artwork to benefit handicapped artists globally.

Bristow, who is a Web site designer, designed and maintains the Global Art Initiative Web site. He also is the technology coordinator for the initiative, which is headquartered in Burnet.

Sorrells, who has natural disaster experience, speaks French and has been to Haiti several times, traveled with relief supplies to Haiti Friday, Jan. 26, in an effort to locate four of the disabled artists the institute represents, including three who reside within blocks of the presidential palace. All four artists were located and in good health.

To make a donation, visit the institute Web site at www.iisport.org, click the "Make a Donation" button on the left column or call (903) 894-8224. Checks can be made payable to Global Art Initiative and mailed to Global Art Initiative, PO Box 1245, Burnet, TX 78611.

Three ejected in one-vehicle wreck

Three people were ejected from a truck in a two-vehicle collision late Thursday night on Texas Highway 155 in Noonday.

Department of Public Safety investigators on scene said all three individuals were taken to East Texas Medical Center in Tyler. The severity of their injuries was unknown.

The driver of the other vehicle declined ambulance transport, investigators said.

The collision occurred around 10:20 p.m., when a red Dodge pickup reportedly pulled onto 155 from Rushing Road and struck the driver's side of a black Ford light-duty truck. Both vehicles were severely damaged in the crash.

comedy titled *Shakespeare Unbound*, followed by Middle School choir and drama students in *The Music Man Jr.*

The cast, sets and costumes are all in order and SOFA has planned a scrumptious meal. Limited reserved seating is available at a cost of \$7 per person, and will be sold at the door (if available) for \$8 per person.

Seating assignments are reserved as tickets are purchased and will be limited to 220 persons each evening. Tickets are available from Donna Dean at the front desk or from Glenn Ballard in room L-105, or call Ballard at (903) 312-0371 for more information.

Digital mammography at ETMC Lake Palestine: The advantage is clear.

Quicker, more accurate mammogram results.

The most advanced digital mammography technology available is at the new ETMC First Physicians clinic at Lake Palestine. This cutting-edge equipment produces sharper images that are more clear than those from film. As a result, these detailed images enable doctors to detect abnormalities that may be a sign of early cancer — offering you a more accurate diagnosis.

Exam times are shortened as patients will no longer have to wait for film to be developed. Repeat visits due to involuntary motion and faulty film exposure are also virtually eliminated as technicians know immediately if another view needs to be taken.

Peace of mind only experts can provide.

All digital mammograms performed at ETMC Lake Palestine are read by fellowship-trained breast radiologist Michael Klouda, MD, of the ETMC Breast Center in Tyler. Dr. Klouda is a respected authority in the field of breast cancer detection. In addition to reviewing all mammograms, he works directly with your physician regarding the results.

Michael Klouda, MD
Fellowship-trained breast radiologist

One in eight women will face breast cancer in her lifetime. For those who become part of this unfortunate statistic, there's peace of mind in knowing that you have access to the specialists and technologies of the ETMC Cancer Institute when you have your digital mammogram at ETMC Lake Palestine.

For more information or to make an appointment, please call **903-596-ETMC**.

ETMC LAKE PALESTINE

East Texas Medical Center
Regional Healthcare System

Medicare and most insurance plans provide coverage for yearly mammograms.
